GELGUIDE RESINS

BONDING

LCN Bonding enhancers are optimizing the bonding characteristics of LCN UV Gels with bonding characteristics. Bonding agents are essential components in classical nail sculpting and should always be applied extremely thin. All LCN Bonding gels are compatible with all LCN UV Gels.

SCULPTING AND EXTENSION

LCN UV Gels for nail sculpting are tailor-made formulations, that differentiate themselves in their physical characteristics, in order to meet the individual needs of natural nails. They are available in different colours and viscosities. LCN UV Gels are suitable for curing in all LCN light units, exhibit the best possible bio-compatibility and are compatible with all LCN UV Gels.

NATURAL NAILS

LCN UV Repair Gels are Gels to be used to repair and strengthen natural nails. They are also suitable for especially thin full sets and refills for normal to strong natural nails. All UV Repair Gels are compatible with all LCN UV Gels.

SEALING

LCN UV Gels to seal nail sculptings are available in different variations from matt to high gloss, with and without dispersion layer as well as different colours. All LCN UV Sealing Gels are compatible with all LCN UV Gels.

FRENCH

LCN UV French Gels are suitable to create the very popular look of white tips when working TIP extensions and paper form extensions, for the free nail edge in full sets and refills. All LCN UV French Gels are compatible with all LCN UV Gels.

NAIL BED EXTENSION/FULL COLOUR

A optical nail bed extension or correction, in combination with a French look can be achieved with the LCN Camouflage UV Gels. In a full colour we can use all LCN Colour Gels in combination with the LCN Sealants.

PROFESSIONAL FOOT CARE

The UV Gels for professional Foot Care serve the correction and beautification of toe nails. They contain active additives like microcrystalline silver and Piroctone Olamine. With our Soak-off System LAQISH or our Foot Colour Base Gel we are offering Gels for a perfect pedicure. All UV Gels for Foot Care are compatible with all LCN UV Gels.

NAIL TYPE GUIDE

RESINS

NORMAL, STRONG NAILS	DRY, BRITTLE NAILS	SOFT, FLEXIBLE NAILS	OILY NAILS, PROBLEM NAILS
			
The nail is strong but elastic. It adjusts to daily strains.	The nail is dry and very brittle. It often separates at the free nail edge.	The nail is very elastic and bendable. Nails and skin are rather moist.	The nail is oily and tends towards liftings.

STRENGTHEN, PROTECT, GROW

AVAILABLE IN DIFFERENT COLOURS

NATURAL NAIL BOOST GEL

UNIQUE SYSTEM TO PROTECT THE NATURAL NAIL

Type of customer

For customers who wish to let their natural nails grow beautiful, strong and even. NNB is suitable for clients who suffer from thin, brittle and soft nails and who wish for a thin and flexible support for their natural nails but who do not want a classical nail sculpting. Also suitable for customers who suffer from deep ridges in their nail plates. NNB is suitable to provide a youthful looking nail surface. NNB matt is perfect for male customers who suffer from thin, brittle and soft nails.

Characteristics

- › Light curing, solvent resistant Permanent-Gel polish
- › flexible and break resistant
- › Protects and stabilizes natural nails
- › Supports the regeneration process of natural nails
- › The Keratin it contains has a nourishing effect on natural nails

YOUR NAIL NURSE!

AVAILABLE IN DIFFERENT COLOURS

BIO GLASS GEL

THE INNOVATIVE GEL WITH BIO-ACTIVE INGREDIENTS

Type of customer

Our Bio Glass Gel Series is especially suitable for customers with sensitive nails. Nail damages can be reduced with our Bio Glass Gel and it is therefore ideal for customers with damaged nails. This Gel supports the regeneration process of nails and it can visibly improve the nail structure.

Characteristics

- › 100 % acid free Gel with bio-active ingredients
- › Contains exclusively compounds that are accepted by the human body
- › Has a high Bio-compatibility
- › Provides a natural connection to the natural nail
- › Bonding agent and sculpting gel in one product
- › Dermatologically tested and found - very good
- › Nail building properties due to the L-Cystein and Chitosan it contains

HIGHTECH FOR HIGH PROFESSIONALS

AVAILABLE IN DIFFERENT COLOURS

FIBERTECH GEL

EXTREMELY RESISTANT TO PRESSURE

Type of customer

FiberTech is especially suitable for customers with normal and strong nails. This Gel is suitable for nail strengthening and for repairs of longer natural nails as well as sculpting extreme shapes and lengths.

Characteristics

- › Combines Bonding and Sculpting properties
- › Contains fiber glass particles
- › Pressure resistant
- › Suitable for paper form techniques
- › Liftings are virtually impossible
- › 100 % vegan

ANTI-AGING EFFECT

ANTI-AGING FIBER NAILTECH

THE LATEST FIBERGEL-TECHNOLOGY WITH ANTI-AGING EFFECT

Type of customer

The Anti Aging Fiber NailTech is suitable for customers 35+. It is specially suitable for customers who wish to counteract the ageing process pro-actively.

Characteristics

- › Bonding & Sculpting in one product. Stabilises the natural nail, with a slight build-up
- › Contains a Vitamin A-complex to maintain the nail, hyaluronic acid for more resilience of the nails, more moisture and elasticity, Fiberglass particles for more stability of the nail and more collagen, to fill up nail grooves.

The Anti Aging Nail Serum is the perfect final care – this way the aging process has no chance at all!

- › Collagen promotes the elasticity in the skin
- › Hyaluronic acid, glycerin and panthenol counteract the aging process
- › Panthenol soothes dry and sensitive skin and improves the optic

THE PERFECT PARTNER
(Art.-No.: 91383)

STRONGER THAN GEL – MORE FLEXIBLE THAN ACRYLIC

AVAILABLE IN DIFFERENT COLOURS

FUSION GEL

THE PERFECT COMBINATION OF ACRYLIC & GEL

Type of customer

Our Fusion is suitable for all customers who have slightly firmer and strong nails. The product can chip off if clients nails are too soft, flexible and thin. With this type of nail it is important not to work too thin.

Characteristics

- › Easy application
- › Odourless
- › Anti-yellow formulation
- › Very good bonding properties
- › No heat development
- › Acid and monomer free
- › Pinchable
- › Stable thanks to the acrylic part and flexible thanks to its Gel base
- › Suitable for beginners and advanced

POW{D}ER FOR YOUR NATURAL NAILS

AVAILABLE IN DIFFERENT COLOURS

DIP'N GO

THE ACRYLIC SYSTEM FOR NATURAL NAIL STRENGTHENING

Type of customer

The Dip'n Go System is suitable for all customers who wish for a natural nail strengthening. It is ideally suitable for nails that are not too long.

Characteristics

- › Thin and natural nail strengthening
- › Quick nail sculpting
- › Extremely stable
- › Easy application
- › No light unit necessary

ALL FOR ONE

AVAILABLE IN DIFFERENT COLOURS

AFO

PERFECT RESULTS FOR ALL NAILS WITH EXTREME LIFTING PROBLEMS

Type of customer

AFO is suitable for customers who tend towards oily nails and nails that tend towards liftings. This system is especially suitable for customers who would like to change from Acrylic to Gel. It is suitable for Full Sets and Refills and is perfect for artificial nails with a normal length and a medium build up.

Characteristics

- › AFO Nail Foundation is air drying and builds the perfect base for sculpting with AFO Building Gel, contains a low amount of acid
- › AFO Bonding Gel is a extremely strong UV Bonding agent containing a low amount of acid. Liftings are virtually impossible.
- › AFO Building Gel is a acid free sculpting gel.
The Gel is break resistant, elastic and distinguishes itself with a high wearing comfort.
