- › Art.-No.: 91025 // 16 ml // with an elegant folding box

FOR CENTURIES ALREADY OUR HANDS ARE CONSIDERED IN MANY CULTURES AS THE MIRROR OF OUR SOUL. THEREFORE THERE ARE MANY DIFFERENT APPROACHES IN THE FIELD OF NATURAL MEDICINE WHERE VITALITY AND THE PERSONALITY OF A PERSON CAN BE READ IN THEIR HANDS. OUR NAILS AS WELL CAN REFLECT OUR NEEDS AND OUR BODIES DEFICIENCIES. PERSONALITY, EXPERIENCE OF LIFE, SELF-DISCOVERY – ALL THIS LIES IN OUR HANDS. THEREFORE IT IS ALL THE MORE IMPORTANT TO PAY ATTENTION TO THEM, TO CARE FOR THEM AND TO CREATE A HAND-RITUAL JUST FOR THEM. BECOME MORE CONSCIOUS ABOUT YOURSELF AND SHOW THE WORLD WHO YOU REALLY ARE, THE LCN SPA PRODUCTS FOR HANDS AND NAILS WILL ACCOMPANY YOU IN THIS.

CEREMONY

1 A warm water hand bath with the SPA Aloe Vera Bath Gel will not only cleanse hands but will also gently prepare for the upcoming ceremony. In addition a warm, moist compress can be used as well.

2 Now prepare hands according to your clients wishes and work a classical manicure.

3 To achieve the ultimate wellness-treatment a extensive SPA peeling is an absolute must. Apply a generous amount of a SPA Peeling onto the back of hands as well as palms (depending on sky type, see listing below) and work in circular movements. Peel hands and lower arms for approx. 2 minutes each and remove remaining peeling granules with warm water.

4 For intensive moisture and protection against external influences apply a invigorating SPA hand mask and wrap hands in a towel. Leave mask for approx. 5 min.

Depending on the skin type you can choose between two SPA hand masks. Remove excess product with a towel.

5 As a finish provide nails and cuticles extensively with vitamins and minerals by applying either SPA Avocado Nail Butter or SPA Macadamia Nail Oil. As a last step we pamper hands with an extensive hand massage, to reduce stress and relieve tension. Here you have a choice between a rich SPA Cream (depending on sky type, see listing below) or alternatively the SPA Waterlily Massage Oil.

TIP:
Depending on the customers wishes nails can be polished. Our recommendation LCN WOW Hybrid Gel Polish for a Gel-Look but without light unit and a durability up to 10 days!

SPA HAND & NAILS MASSAGE-TECHNIQUES

Massage each finger in circular movements with the thumb starting at the tip of the finger and finish each finger with a movement up to the back of the hand.

Move over the back of the hand and massage it in circular movements alternating both thumbs. Here we are evenly moving along the inner and outer edges of the hand using thumb and index finger.

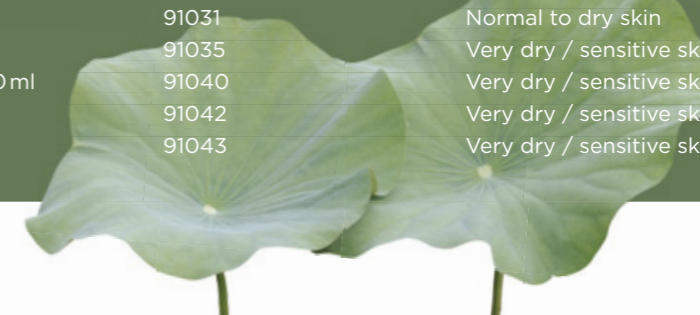

Now turn the hand slowly and move along the palm with a little more pressure using both thumbs. Now massage the palm into the direction of the wrist.

Turn the hand again and massage with your thumb and in circular movements the skin between each finger.

As a finish move along the lower arm right down to the fingers, use your whole and insert a light pressure.

THESE PLEASANT LCN SPA PRODUCTS FOR HANDS, FEET AND BODY SUPPORT YOU TO GAIN NEW ENERGY WITH THE HELP OF THEIR NATURAL ACTIVE INGREDIENTS. CLEANSING, NOURISHMENT AND MOISTURE - THESE ARE THE 3 PILLARS THAT BRING YOUR BODY AND SOUL INTO HARMONY AND PLACE THEM INTO BALANCE. THESE THREE PERFECTLY MATCHED SPA PRODUCTS FULFIL ALL THREE FEATURES. EXPERIENCE RITUALS FOR BODY AND SOUL THAT TAKE YOU AWAY FROM YOUR EVERY DAY STRESS. LCN SPA - YOU WILL EXPERIENCE PURE RELAXATION AND INNER PEACE.

CEREMONY

1 Prepare a soothing cleansing ritual with the SPA Aloe Vera Bath Gel. Place a walnut sized portion of the cleansing gel into a bowl and foam it up with a brush. Now apply the foam gently onto the skin. Rinse the skin with lukewarm water.

2 Remove dirt and excess skin cells with one of the selected SPA peelings. Peelings should be applied with a light pressure and in circular movements. This way the blood circulation is being activated and at the same time the skin renewal process is stimulated. For a more intensive peeling experience use the LCN massage glove. Gently remove peeling residues with lukewarm water.

3 Now fill a small amount of the SPA Waterlily Massage Oil in a bowl and let it drizzle slowly and evenly onto the skin.
Tip: Leave the SPA Waterlily Massage Oil for a little bit in your hands first to warm it up a bit or place the bottle in warm water in order to warm up the oil.

Now start with the massage. Please find an overview of different massage techniques aside. Remaining oil can be dabbed off with a towel.

4 Now apply a soothing SPA Mask to provide the skin with moisture, to soothe and relax. For normal to dry skin we recommend "SPA Natural Care Mask" and for very dry to sensitive skin "SPA Shea Butter Mask". Brush the mask in calm, even movements with the SPA mask brush onto the skin. Cover with a compress and/or a towel and leave for 10 to 15 minutes.

Tip: Music, dim light and matching room scents provide a special atmosphere and supports relaxation. Remove excess mask.

5 As a last step in this ceremony apply SPA Monoï Massage Cream as a final finish and massage it in gently. With this step especially dry skin will receive additional nourishment.

Tip: For extremely dry areas with scaling apply the SPA Muru Muru Chapped Skin Balm locally.

SPA BODY MASSAGE-TECHNIQUES

Warm up your hands und start with the massage. With your fists glide from the top down the back, right along the right and left side of the spine. Open up your hands when gliding along the spine in the opposite direction (from the bottom to the top). With an additional massage technique move with your open palm and a little pressure from the spine outwards, this will loosen the lateral muscles. Release pressure on the reverse movement. Please take special care when massaging the neck. Here you should ease the pressure. Continue cautiously if you encounter "knots" and softly try to massage them away. For the so-called stretching grip move with both palms and at the same time from the spine outwards. A last and very typical massage technique, work with open hands and with kneading, circular movement towards each other.

After the massage cover the body with a towel and leave your client to rest for approx. 10-15 minutes.

- › Art.-No.: 91052 // 75 ml // with an elegant folding box
- › Art.-No.: 91032 // 250 ml

CEREMONY

1 A relaxing foot bath will start the ceremony. Cleanse feet with the SPA Aloe Vera Bath Gel in pleasantly warm water. In addition a warm, moist compress can be used as well.

2 Now prepare feet according to your clients wishes and work a classical pedicure.

3 Following the foot bath we will smooth the skin with a comforting SPA peeling, remove callused skin and provide stressed feet with a lot of moisture. Apply a generous amount of the SPA Himalaya Salt Peeling and work in circular movements along feet and lower legs. For a more intensive peeling experience use the LCN massage glove. Wash feet after the peeling in the foot bath and dry feet gently.

4 For a silky soft feeling to the skin as well as a deep feeling of relaxation smother feet with the SPA Mask to soothe the skin and turn it silky soft.

Apply a layer of SPA Shea Butter Mask onto feet and ankles.

Tip: Wrap feet into LCN Paraffin Protection bags and pull the LCN towelling warming gloves on top. Now leave for 10 minutes. Remove remaining products with a towel.

5 Provide the ultimate wellness factor with relaxing massage and acupressure techniques to release tension and reduce stress. Use your hands to warm up the SPA Monoi Massage Cream (alternatively the SPA Waterlily Massage Oil, SPA Hibiscus Cream or the SPA Tiger Grass Butter). Massage both feet, ankles and calves for 5 minutes according to the recommended massage techniques. Remove excess product with a towel.

SPA FEET MASSAGE-TECHNIQUES

Contrary to other body areas feet react much more sensitive to being touched. Therefore it is important that you start with a gentle skin contact at the instep. Move along both feet in the direction of the toes at the same time and using your hands.

The foot massage starts at the soles. Massage with your thumbs and in circular movements as well as some friction across the whole area. Start at the heel and wander up toward the instep, afterwards move in the opposite direction.

Now change towards the toes. Here you should be very sensitive. Press and rub each toe between thumb and index finger. Carefully spread adjoining toes or move all toes together back and forth with the palm of your hand. Move with your index finger several times into the space between the toes.

As a finish carefully move along each foot towards the toes. Wrap feet to keep them warm and leave for a few minutes to rest.

FEET WILL CARRY US FROM ONE PLACE TO THE OTHER, THEY SUPPORT US AND MAKE SURE THAT WE WILL FIRMLY REMAIN ON THE GROUND. FOR THIS EXACT REASON HEALTHY AND WELL CARED FOR FEET ARE ESSENTIAL FOR OUR PHYSICAL AND EMOTIONAL WELLBEING. THE WELLBEING OF THE ENTIRE BODY IS BEING POSITIVELY INFLUENCED BY THE EFFECT OF THE MERIDIANS, ACUPUNCTURE POINTS AND REFLEX ZONES. THIS UNIQUE SPA CEREMONY WILL HELP TO STRENGTHEN FEET AND TO PROMOTE REGENERATION.

THIS WAY THE WHOLE BODY CAN REGAIN NEW STRENGTH AND APPEARS NOTICEABLY RELAXED AND VITAL. DIVE RIGHT IN INTO THIS STRENGTHENING RITUAL THAT WILL LEAVE YOU FLOATING.

THE POWER OF EXOTIC INGREDIENTS

ALOE VERA

is a cactus-like plant belonging to the lily family. It's gel has an intensively moisturizing, anti-inflammatory, soothing and protective effect on the skin.

TIGER GRASS

Centella Asiatica (tiger grass) is one of the most important rejuvenating plants of Ayurvedic medicine. This tropical plant strengthens the capillary vessels, has an anti-inflammatory, regenerating and smoothing effect.

BAMBOO EXTRACT

with its high content of polysaccharides, mineral salts and amino acids provides and retains moisture in the skin and lastingly strengthens the protective acid layer of the skin.

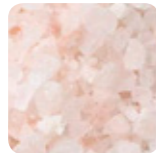

HAZELNUT OIL

Rich in unsaturated fatty acids and vitamin A and E, hazelnut oil is a highly effective care product especially for sensitive and dry skin. It has a firming and tightening effect on the skin.

HIBISCUS EXTRACT

Rich in flavonoids, Hibiscus extract neutralizes free radicals that enter the body via environmental toxins or metabolic processes. In addition, flavonoids have an anti-inflammatory and antiangiogenic effect.

HIMALAYA SALT

supplies the stratum corneum with moisture. As a result of the reviving effect on flaccid, badly circulated skin and the peeling effect, keratinized skin particles are being removed, leaving the skin looking more refined.

MACADAMIA NUT OIL

The high quality Macadamia nut oil, derived by cold pressing, contains vitamins A,B and E and has outstanding moisturizing and smoothing properties. The oil spreads easily and is quickly absorbed by the skin.

GLYCOLIC AND LACTOSE ACID

normalize the thickness of the stratum corneum. The skin looks rosier, softer and smoother. By reducing the thickness of the stratum corneum, the depth of the wrinkles are optically reduced.

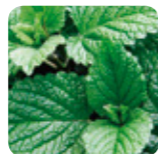

MONOI DE TAHITI OIL

which is extracted from the Tiare plant on Tahiti has white, very fragrant beautiful blossoms which must be picked before dawn and then macerated with coconut oil. The oil provides moisture and nourishment and makes the skin soft and smooth.

MURU MURU BUTTER

is obtained from the fruits of the Muru Muru palm tree. Muru Muru butter contains oil acid, has a nurturing and soothing effect, protects against loss of moisture, forms a protective film and especially helps prevent dry skin.

MINT PLANT

has been known as a medicinal plant since ancient times. The essential menthol oil which has an invigorating and cooling effect is derived from it.

BRAZIL NUT OIL

From the fruits of the brazil nut tree contains a very high share of essential fatty acids, vitamin E and selenium. It harmonizes the moisture content of the skin, keeping it smooth and soft and presents a wonderfully subtle, elastic feeling to the skin.

SHEA BUTTER

The shea nut tree native to the West African savanna bears a fruit which provides Shea butter by pressing their kernels. This valuable natural product is known for its moisturising and healing properties and is traditionally used for the treatment of rheumatism, muscle and joint aches.

WALNUT OIL

The slightly, golden yellow, clear walnut oil, with its high share of unsaturated fatty acids is obtained from cold pressed nuts (oil content approx. 60%) from the walnut tree and is used in cosmetics as an anti-inflammatory active ingredient.

WATER LILY EXTRACT

has an anti-irritating effect and ensures a naturally balanced skin. It is especially suitable for stressed and sensitive skin.

WHITE TEA EXTRACT

stimulates microcirculation and protects against free radicals. White tea extract has an anti-aging effect and can strengthen the blood vessels.
